EXAMINERS STATEMENT OF REASONS FOR ALLOWANCE

2. After careful consideration of the applicant's appeal brief, the examiner is persuaded that the applicant has shown diligence in timely reducing the invention to practice. Therefore, the affidavit filed on December 27, 2005 does overcome the Ogawa reference used in finally rejecting claims 1-14.

3. After an updated search the examiner has found no additional prior art which can be read on the claim language beating the date established by the affidavit filed December 27, 2005. As per MPEP § 1207, the final rejection has been withdrawn and claims 1-14 are allowed.

4. Claims 1-14 are allowed.

5. The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 14, the primary reason for allowance is that the prior art fails to teach or reasonably suggest an image processor for performing first processing to create a digital image file, reading the digital image file from memory and performing second processing on the digital image file before being sent to the interface connected to a separate color printer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
